

A secure, real-time enterprise mobile client designed to extend Microsoft® Office Communications Server 2007 R2 Group Chat to mobile devices including Blackberry®, iPhone® and Windows Mobile®.

Formicary Mobile Chat

Real-time Group Chat on Your Mobile Device

Enterprise Ready

Formicary Mobile Chat complements OCS 2007 R2 Group Chat by providing users access to Group Chat and presence through mobile devices. Formicary Mobile Chat enables users to stay in contact with their teams whilst on the move, reducing phone, email usage and their associated costs.

Figure 1. Typical chat room
